---

### PROFESSIONAL SUMMARY

Front-End Developer with hands-on experience in building responsive and scalable web applications using React, Next.js, TypeScript, and modern JavaScript. Proven track record in collaborating with cross-functional teams to deliver user-focused solutions and improve application performance.

### Skills

**Frontend Development:** React, Next.js, TypeScript, JavaScript (ES6+), React Testing Library, Tailwind CSS, MUI

**Tools & Technologies:** Figma, Git, Jira, Bitbucket, Confluence, AWS

---

### WORK EXPERIENCE

#### Ecombooster, Sweden

##### *Front End Developer / Full-time (Remote) / Feb 2024 – Aug 2024*

- Architected and developed the next-generation frontend using React, TypeScript, and MUI, transitioning the platform into a modern SaaS offering.
- Led a UX study and refinement process in Figma to identify and resolve interface bottlenecks, resulting in a more intuitive user experience.
- Took full ownership of feature development, from Jira ticket refinement and Figma prototyping to final implementation and automated testing.
- Collaborated on API design with the backend team to ensure efficient data flow between the Python/Django core and the React frontend.
- Mastered remote team dynamics using Agile methodologies and Trunk-Based Development to maintain high deployment velocity and code quality.

#### Persiana Software Group, Iran

##### *Front End Developer / Full-time (On-site) / Jun 2018 – Mar 2023*

- Built and improved key features for a React-based resume platform, which helped grow our user base by 12%.
- Took charge of updating the branch sales management system, making it much more stable and dropping bug reports by 10%.
- Turned complex business needs into smooth UI components, making sure the code was fast and easy to manage.
- Worked closely with designers to bring Figma files to life, ensuring everything was fully responsive and user-friendly.
- Cleaned up and modernized old code, which made the app faster and much easier for the team to scale.
- Promoted better coding habits within the team, helping everyone write cleaner code and helping new developers settle in.

#### Housing Foundation, Iran

##### *IT Operations & Specialist (Enterprise Solutions) / Full-time (On-site) / Jan 2004 - May 2018*

- National Real Estate Portal: Acted as the lead bridge between users and technical teams to design and implement a nationwide sales system across 31 provinces; transformed reporting from 30-day delays into real-time data access for sales and inventory.
- Enterprise Document System: Spearheaded the UI/UX design and workflow modernization for 23 regional branches, transitioning legacy paper-based processes to a digital platform with daily automated reporting.
